

PREFACE

Welcome to the Graduate Program Hydrologic Sciences (GPHS) Handbook. The handbook is a compilation of published University of Nevada information and GPHS program materials provided for the convenience of the students and faculty. It remains the student's responsibility to assure that the requirements set by the Advisory/Examining Committee and the Graduate School are met.

Note that all paperwork required by the Graduate School must be routed through the GPHS program office for the signature of the GPHS Director.

Most of the forms and documents provided in this handbook are also available online at the Graduate School website (<http://www.unr.edu/grad/forms/>) or at the GPHS website (<http://www.hydro.unr.edu/>). **The Graduate School will not accept any handwritten forms including applications.** All forms on the Graduate School website are interactive so that you can fill them in on-line and print them out for signatures.

Throughout your years in the GPHS your major advisor and committee will be your primary source of guidance.

Best wishes as you move forward toward your degree.

Laurel Saito
Program Director
Graduate Program of Hydrologic Sciences
